

CURRICULUM VITAE: Philipp M. Altrock

Current Position: Department of Integrated Mathematical Oncology (IMO)
 Assistant Member
 H. Lee Moffitt Cancer Center and Research Institute
 12902 USF Magnolia Drive
 Tampa, FL 33612
 (813) 745 - 1158
 (857) 207 - 6075
philipp.altrock@moffitt.org
<http://labpages2.moffitt.org/altrock@evolsci>

EDUCATION:

2002 – 2007	Diplom Physiker (M.Sc.)	Physics, University of Leipzig
2008 – 2011	Dr. rer. nat. (Ph.D.)	Natural Sciences, University of Kiel

POSTGRADUATE TRAINING AND FELLOWSHIP APPOINTMENTS:

Apr. 2008 – Mar. 2011	Research Assistant, Max Planck Institute for Evolutionary Biology
Mar. 2011 – Jan. 2013	Postdoctoral Research Scientist, Max Planck Institute for Evolutionary Biology
Feb. 2013 – Jan. 2017	Postdoctoral Researcher, Department of Biostatistics and Computational Biology, Dana-Farber Cancer Institute
Jul. 2013 – Jan. 2017	Research Fellow, Department of Biostatistics, Harvard T. H. Chan School of Public Health

ACADEMIC APPOINTMENTS:

Jan. 2017 – present	Assistant Member, Department of Integrated Mathematical Oncology, H. Lee Moffitt Cancer Center and Research Institute
Jul. 2017 – present	Assistant Professor, Department of Oncologic Sciences, University of South Florida, Morsani College of Medicine

TEACHING EXPERIENCE:**1. University Courses:**

2012 – 2014	Course Instructor: Evolutionary Dynamics, Institute of Mathematics University of Lübeck
2013	Course Instructor: Evolutionary Dynamics of Cancer, Department of Biostatistics Harvard T. H. Chan School of Public Health
2015	Course Instructor: Evolutionary Dynamics of Cancer, Department of Biostatistics Harvard T. H. Chan School of Public Health
2016	Course Instructor: Advanced topics of evolutionary dynamics, Program for Evolutionary Dynamics Harvard University
2018	Course Instructor: Integrated Mathematical Oncology I, Cancer Biology PhD Program H. Lee Moffitt Cancer Center and Research Institute
2019	Course Director/Course Instructor: Integrated Mathematical Oncology II, Cancer Biology PhD Program, H. Lee Moffitt Cancer Center and Research Institute
2019	Course Instructor: Integrated Mathematical Oncology I, Cancer Biology PhD Program H. Lee Moffitt Cancer Center and Research Institute
2020	Course Director/Course Instructor: Integrated Mathematical Oncology II, Cancer Biology PhD Program, H. Lee Moffitt Cancer Center and Research Institute

2. Other Courses and National symposia:**Masters Classes**

July 2019 Course Instructor: Mathematical modeling of cancer, q-bio summer school, Rice University

3. Teaching and Training Experience:**a. High School Training:**

June 2017 – July 2017 **Research Training Mentor:** High School Intern
Ashley Kelly, Palm Harbor University High School, Palm Harbor, FL

June 2018 – July 2018 **Research Training Mentor:** High School Intern
Blake Bridge, Tampa Preparatory School, Tampa, FL

June 2019 – July 2019 **Research Training Mentor:** High School Intern
Benjamin Sherwin, Strawberry Crest High School Dover, FL
Research Training Mentor: High School Intern
Abigail Tan, Palm Harbor University High School, Palm Harbor, FL

b. Under Graduate Training:

Jan. 2018 – Mar. 2018 **Research Training Mentor:** Dartmouth Mathematical Biology Program
BSc Student Yixuan He, Dartmouth College

May 2019 – Aug. 2019 **Research Training Mentor:** SPARK program (Moffitt Cancer Center)
BSc Student, Brian Johnson, Rutgers University

Jan. 2018 – Mar. 2018 **Research Training Mentor:** Dartmouth Mathematical Biology Program
BSc Student Kristofer Hammond, Dartmouth College

Aug. 2019 – May 2020 **Honors Thesis Advisor:** BSc Student
Brian Johnson, Rutgers University

c. Graduate Training:**d. Post-Doctoral Training:**

Aug. 2017 – present Advisor and Mentor, Meghan Ferrall-Fairbanks, Ph.D., Moffitt Cancer Center

Jul. 2017 – Apr. 2019 Advisor and Mentor, Gregory Kimmel, Ph.D., Moffitt Cancer Center

e. Research Scientist Mentoring:

Apr. 2019 – present Gregory Kimmel, Ph.D., Moffitt Cancer Center

HONORS AND AWARDS

Jan. 2020 – present Member, Interdisciplinary Expert Panel, Research Foundation Flanders (FWO), Belgium

Oct. 2019 – present Member of the Editorial Board, The Journal of Nonlinear Science

Feb. 2014 – Jan. 2017 Research Fellowship, German Academy of Sciences Leopoldina

RESEARCH SUPPORT**External Grants Current:**

Account #:	W81XWH1910655 (PI: Manley)
Dates:	08/15/2019 – 08/14/2020
Source:	US Army, USAMRAA
Title:	KC180036-Modeling Spatial Ecology in Clear Cell Renal Cell Carcinoma Model
Effort:	3%
Role in Study:	Co-I (PI: Brandon Manley)
Total Direct Cost	\$74,887
Total Amount of the Award:	\$150,000

Account #: ACS-RSA
 Dates: 01/01/2020 – 12/31/2023
 Source: American Cancer Society
 Title: Cytokine-dependent Genetic Selection in Chronic Myelomonocytic Leukemia
 Effort: 5%
 Role in Study: Co-I (PI: Eric Padron)
 Total Direct Cost: \$165,000
 Total Amount of the Award: \$680,000

Account #: KITE 18-0515
 Dates: 12/26/2019 – 12/25/2021
 Source: KITE Pharma
 Title: Predictive Markers and Evolutionary Dynamics of Axicabtagene Ciloleucel in NHL
 Effort: 15%
 Role in Study: Co-I (PI: Frederick Locke)
 Total Direct Cost: \$423,011
 Total Amount of the Award: \$1,269,033

External Grants Completed:

Account #: Dana-Farber PS-OC pilot award
 Dates: 04/01/2017 – 03/31/2018
 Source: NIH U54CA143798
 Title: Quantifying bone marrow alteration kinetics and cancer risk in Shwachmann-Diamond syndrome
 % Effort: 10%
 Role in the Study: co-PI
 Total Direct Costs: \$15,000
 Total Amount of Award: \$158,612

Internal Grants Current:

Account #: ACS-IRG
 Dates: 09/02/2019 – 08/30/2020
 Source: American Cancer Society
 Title: Quantifiers of heterogeneity in Leukemia using single cell RNA sequencing
 % Effort: 5%
 Role in the Study: PI
 Total Direct Costs: \$30,000
 Total Amount of Award: \$30,000

Account #: Moffitt Cancer Center Team Science Award
 Dates: 06/01/2019 – 05/31/2020
 Source: NIH P30CA076292
 Title: Quantifiers of heterogeneity in Leukemia using single cell RNA sequencing
 % Effort: 5%
 Role in the Study: co-PI
 Total Direct Costs: \$60,000
 Total Amount of Award: \$100,000

Internal Grants Completed:

Account #: U54CA193489 (parent)
 Dates: 01/01/2018 – 12/31/2019
 Source: NIH/Moffitt PS-OC

Title: Evolutionary Dynamics of Non-Hodgkin Lymphoma CAR-T cell therapy
 % Effort: 2%
 Role in the Study: co-PI
 Total Direct Costs: \$20,000
 Total Amount of Award: \$20,000

External Grants Pending:

Proposal: R21 (MPI: Andor/Altrock)
 Source: NIH/NCI
 Dates: 07/01/2020 – 06/30/2022
 Title: Necrosis as amplifier of an apoptosis-resistant cell's role in invasion
 Effort: 15%
 Role: Principal Investigator
 Total Direct Costs: \$275,000
 Total Requested: \$452,925
 Date Submitted: October 2019

Proposal: R01 (MPI: Marusyk/Altrock/Basanta)
 Source: NIH/NCI
 Dates: 07/01/2020 – 06/30/2025
 Title: Defining the Impact of CAF Mediated Stromal Protection on the In-Vivo Efficiency of Targeted Therapies in Lung Cancers
 Effort: 15%
 Role: Co-Principal Investigator
 Total Direct Costs: \$2,157,783
 Total Requested: \$3,553,868
 Date Submitted: October 2019

Proposal: (PI: Padron)
 Source: FBRP, Bankhead-Coley Cancer Research Progra
 Dates: 03/01/2020 – 02/28/2025
 Title: The lncRNA MALAT1 as a novel regulator of myeloid differentiation and therapeutic target in myelomonocytic leukemias
 Effort: 2%
 Role: Co-Investigator
 Total Direct Costs: \$1,304,345
 Total Requested: \$1,499,997
 Date Submitted: September 2019

Proposal: (PIs: Marusyk/Altrock/Basanta)
 Source: FBRP, Bankhead-Coley Cancer Research Progra
 Dates: 03/01/2020 – 02/28/2025
 Title: Impact of Stromal Architecture on the Response of Lung Cancers to Targeted Therapiess
 Effort: 5%
 Role: Co-Principal Investigator
 Total Direct Costs: \$652,174
 Total Requested: \$750,000
 Date Submitted: September 2019

Miscellaneous Grants

Feb. 2014 – Jan. 2017

German Academy of Sciences Leopoldina, approximately \$150,000

SHORT RESEARCH STATEMENT:

My lab and I am interested in the design, analysis, and application of mathematical, computational and statistical models in biology and medicine, with a particular focus on cancer dynamics. My research mainly focuses on the following four areas:

1. Clinical data integration and predictive modeling of cancer cellular immunotherapy (CAR T cell therapy).
2. Single-cell resolution heterogeneity and clonal evolution in Leukemia progression and resistance evolution.
3. Image-based classification of the tumor microenvironment (fibroblasts, immune cells) in solid tumors, tumor ecology.
4. Evolutionary public goods games as a way to understand complex interactions among groups of cells that co-evolve.

LEADERSHIP, SERVICE, AND MEMBERSHIP:**Moffitt Cancer Center****Committees:**

2020 – present	Member of Total Cancer Care (TCC) Faculty Committee
2019 – present	Member of the Collaborative Data Services Shared Resource Advisory Committee
2018 – present	Member of the High-Performance Computing (HPC) Steering Committee
2018 – present	Chair of the Quantitative Sciences Grand Rounds Organizing Committee

Max Planck Institute for Evolutionary Biology

2009 – 2011	Elected PhD Representative and Spokesperson
-------------	---

University of Leipzig, Faculty of Physics and Earth Sciences

2006 – 2007	Student Representative in the Examination Board
2005 – 2007	Elected Member of the Student Board

Ad-hoc Referee and Editor:

Editorial Board Member: The Journal of Nonlinear Science. Editor: PLoS Computational Biology. Journals: PNAS, blood, Nature Communications, PeerJ, Bioinformatics, PLoS Computational Biology, PLoS Medicine, PLoS Genetics, Physical Review Letters, Integrative Biology, Journal of Theoretical Biology, Bulletin of Mathematical Biology, New Journal of Physics, Journal of Statistical Physics, Physica A, European Physics Letters, Theory in Biosciences. Grants: NWO (Netherlands), FWO (Belgium), EPSRC (UK). Other: Florida Board of Education.

Professional Association Memberships:

2001 – present	Member, German Physical Society
2015 – present	Member, European Society for Mathematical and Theoretical Biology
2015 – present	Member, Society for Mathematical Biology
2016 – present	Member, American Society for Gene and Cell Therapy
2017 – present	Member, American Association for Cancer Research

CONFERENCE, WORKSHOP, SYMPOSIUM, AND MEETING ORGANIZATION

- Co-organizer of Mini- Symposium at the Society for Mathematical Biology Annual Meeting, Salt Lake City (2017)
- Co-organizer of “Modeling Diversity in Cancer and Virus Evolution”, Workshop at the Max Planck Institute for Evolutionary Biology, Plön, Germany (2018)
- Co-organizer of Mini-Symposium at the European Conference for Math. and Theoretical Biology, Lisbon (2018)
- Co-organizer of Mini- Symposium at the Society for Mathematical Biology Annual Meeting, Montreal (2019)
