You are receiving this email as a Cancer Researcher in GMaP Region 2

Greetings from the Geographical Management of Cancer Health Disparities (GMaP) Region 2 team.

GMaP is an integrated network of 7 hubs across the United States. Moffitt Cancer Center in Tampa, FL serves as the hub for GMaP Region 2 (previously Region 3), which currently includes more than 40 partner institutions in Alabama, Arkansas, Florida, Georgia, Louisiana, Missouri, Mississippi and Puerto Rico.
Do you need feedback from senior researchers prior to submitting a competitive grant application?

The Expert Grant Review award is intended to assist New Investigators and Early Stage Investigators who are applying for funding awards with feedback from senior researchers in the region. This award supports pre-submission peer review of grant proposals by outside experts.

Abstract Title:
Poster Session:

The Center to Reduce Cancer Health Disparities (CRCHD) CURE program offers unique training and career development opportunities to enhance and
increase diversity in the cancer and cancer health disparities research workforce. The CURE program identifies promising candidates from high school through junior investigator levels, and provides them with a continuum of competitive funding opportunities.

For more information on the CURE program, click here.

Are you interested in a Diversity and Re-entry Supplement?

NCI Diversity supplements support the research training of students, post-baccalaureate and post-masters individual, postdoctoral fellows, and faculty investigators who are members of an underrepresented group.

Learn more about how you can become part of the next generation of competitive investigators in cancer health disparities research by participating in the diversity and re-entry supplements!
